	FACT-RCF Building Products Ltd. (FRBL)	

1. INTRODUCTION

1.1 This specification commits the procurement of material, manufacture, assembly, testing, packing and supply of GFRG Panel lifting device and its accessories. This specification forms a part of the bid document and shall be read in conjunction with the same.

1.2 All items /equipment committed shall be complete in all respects and any specific item not committed or mentioned in the specification but essential for proper functioning, installation or maintenance of the supplied item or equipment shall be included.

1.3 All material, components, parts & equipment committed in this specification shall be designed, manufactured, assembled, tested, erected and commissioned in accordance with the relevant standards of Bureau of Indian Standards or equivalent International standards such as BS, ASTM, ANSI, ASME, DIN, ISO, IEC, EN etc.

1.4 The tenderer shall submit a statement of similar items manufactured and supplied by him during the last five years.

2. SITE CONDITIONS

Mean annual rain fall – 2817 mm

Maximum wind speed – 124 km per hour

Seismic condition – Zone III

Maximum ambient temperature – 40 deg C

Maximum Relative humidity – 98 %

Barometric pressure – 754 mmHg

Ambience Due to location within industrial complex, the air may contain particles of sand and urea, ammonia and so no part in direct contact with atmosphere may be constructed from copper or copper alloys.

3. SCOPE

The scope of work of the bidder shall include but not to be limited the following

Preparation of detailed shop drawings and documents for fabrication, procurement of raw material, fabrication, machining, assembly, self inspection, customer inspection/testing, surface preparation, painting, labeling, packing and delivery at site.

Relevant drawings are attached.

4. QUALITY MANUFACTURING

All items committed under this specification shall be manufactured, assembled and tested internationally acceptable quality. All materials used shall be new and tested quality. Unbranded steel used will not be accepted. The steel work shall conform to IS: 800 : 1984. All structural shall comply with IS 2062 & steel tubes should conform with IS 1161. Fabrication shall be as per IS 802. Tolerance of fabricated work shall be as in IS:7215. Electrodes complying with IS:914 should be used for welding.

5. PAINTING

Surface preparation shall be as per IS:1477. Paint shall be applied in accordance with the paint manufacturer's recommendations. Paint shall generally be applied by brushing for prime coats and spraying for finish coats. Paint shall not be applied in rain, wind, fog or at relative humidity of 80 % and above or when the surface temperature is below dew point resulting in condensation of moisture. Each coat of paint shall be allowed to dry sufficiently before application of the next coat to avoid damage.

The paint of following vendors are only acceptable. Asian Paint, Shalimar, Johnson & Nickelson, Nerolac, Berger & Bombay Paint.

Color code: The primer coat should be black board black & finish coat should be deep orange color. The dry film thickness should be not less than 40.

6. LABELING

On each set it should be labeled as – FRBL - SWL – 750 KG – by paint in 1 cm width & 5 cm height letters.

7. INSPECTION & TESTING

All items committed under the specification shall be subjected to inspection at the manufacturer's works by the purchaser or his authorized representative if required. Shop test includes: scrutiny of material used, dimensional check up, quality of welding, painting and assembly. Safe working load test should also to be done at workshop.

8. PACKING & DESPATCH

The consignment should be well packed and dispatched to FRBL by road. Freight, insurance, loading & unloading at FRBL are under the scope of vendor. If any assembly is required at site, the vendor has to do it at his own cost. Load test if required at site should also be arranged by the vendor on his cost.

9. PERFORMANCE GUARANTEE

All the components of the item shall be guaranteed against any defect in material, manufacturing, assembly, testing, painting, etc for a period of 12 months from the date of final delivery at site.

10. DELIVERY

The items committed by this specification shall be supplied within 10 weeks from the date of order placement. Part delivery and its payment can also be done as per requirement.
