Scope of work

Surface preparation and coating of the Casting table A1. As per detailed scope of work, schedule of work / rates, special conditions and general terms and conditions.

Detailed Scope of Work

Applying the coating system **as per manufacturer's specification** and procedure and allowing sufficient curing time.

1. Preparing the full surface of the table top concrete by grinding and Cleaning all debris, dirt, grease, oil, dust etc. from the table top for application of primer.
2. Applying primer, Vinbond. – 1000 microns thick.
3. Applying M-crete 2500 self-levelling overlay over the primer coat – 5000 microns thick.
4. Applying primer Cipoxy 15 over the M-crete– 200 microns thick.
5. Applying Screed Cipoxy 15+FAG 200 over the primer coat– 3000 microns thick.
6. Applying topping coat of Cipothane SL 1000 over the screed coat. – 900 microns thick.
7. Zero tolerance on water level shall be adhered on all the surface after the screed coating / self-level epoxy coating and good workmanship shall be followed. Distance between the top of the table top coat and the top of the side rules shall be maintained uniformly as 124 mm after completing all coatings. Surface level shall be checked in between the coatings to obtain zero tolerance on water level on the finished surface.

Special conditions.

1. The tenderer shall inspect the site, asses the site conditions and the work involved before submitting the tender.
2. A chart showing surface level taken at various points of Casting Table A1 is attached for reference. Tenderer shall himself make arrangements at his own cost to check the surface irregularities and assess the thickness of coating required to get zero tolerance on the table top surface, before submission of tender and quote accordingly.
3. It will be assumed that the tenderer has inspected the table as mentioned above and satisfied himself about the thickness of coating required and the work involved. No further claims whatsoever will be entertained after submission of tender and awarding of contract.
4. Work shall be done under the expertness of an experienced applicator .Details of the applicator shall be furnished before starting the work, for our review.
5. All required material, consumables, tools and tackles, equipment and labour shall be in the scope of the Contractor. Electricity, water and compressed air only will be given at one point free of charges. Necessary distribution shall be arranged by the contractor at his sown cost.
6. Only the specified material shall be used. The contractor / applicator should bring only sealed containers of the given brand of material inside the Factory premises.
7. After the application of Mcrete 2500, the Mechanical Maintenance shall be informed and uniformity in self-levelling to be checked and confirmed before proceeding with Cipoxy 15.

8. Work shall be guaranteed against defective material / poor workmanship for a period of 12 months from the date of completion of work.
9. The Contractor shall strictly observe all the safety and security regulations followed by the company. Personal safety protection equipments (PPE's) like safety shoes, safety helmets, full body harness etc. shall be arranged by the contractor, at his own cost as required.
10. The Contractor should have their own ESI & PF Code Nos.
11. Employees with ESI & PF No. alone will be permitted to work inside the Factory. Statutory requirements as per ESI and PF Acts shall be strictly adhered to. Necessary passes shall be obtained from FRBL administrative department before engaging the labour for the work in FRBL. Labourers with valid passes shall only be permitted to be engaged for the work.
12. Proof for remittance of ESI and PF contributions shall be submitted along with wage rolls on 22nd of subsequent month.
13. Vehicles shall be fitted with spark arrestors before entering FRBL premises.
14. Period of completion – Period of completion shall be 25 days. (12 days for receipt of material at FRBL and 13 days for execution on releasing of table.).
15. Security deposit 10% of the contract shall be remitted before starting the work. EMD remitted shall be adjusted against security deposit. Security deposit will be released on successful completion of guarantee period of 12 months
16. Payment will be made after completion of work and measurement certified by FRBL
17. The general terms and conditions of contract shall be applicable to this work also.
18. Quotation shall be submitted in the attached proforma for schedule of work / rates.
